

Spreader Bars for Forklift

Spreader Bars for Forklift - ELME has been proudly operating ever since 1974, becoming the largest independent spreader manufacturer all over the globe. They are a dedicated manufacturer of spreaders meant for numerous several applications like for example the trailers, handling of containers and swap bodies.

Engineering is done in house by using all the latest FEM tools and CAD systems. The ELME company presently has over 125 workers. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all over the world.

The ELME product series offers spreaders utilized for different container and trailer handling operations. Some of their inventory consist of: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes as well as a wide range of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by making use of quality parts in order to ensure reliability and high standards. Major characteristics of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
