

## Axle Tech Part

Axle Tech Part - AxleTech International is a premier supplier in the world of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its customers' preferred supplier. AxleTech strives to exceed and meet their clients' expectations for delivery, quality, service and technology. They believe in working within an atmosphere that encourages the highest integrity with empowered collaboration, together with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and offering a safe atmosphere for their staff to work in. Also, they have implemented many programs in the company in order to help convey these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whatever comments or questions, as they are happy to promote and share this policy with a greater knowledge of their efforts. They are really devoted to improving and preserving the natural environment. AxleTech has an EHS program that not just protects the natural environment but which also actively protects their staff and neighbors too.

AxleTech specializes in the manufacture and designing of planetary axles meant for both commercial and military applications, that could include anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider too. AxleTech particularly designs axles to be able to meet specific application demands. They have over 1000 various axle specs in their existing offering. With over one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The company is well known in numerous military and commercial applications. They offer complete axle assemblies used for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have extra details which can be seen in the "ISAS" product collection.
