

Meritor Part

Meritor Parts - Meritor is a leading international supplier that is proudly founded on a 100 year tradition of quality and service. They specialize in various modules, integrated systems and components to original machinery makers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and believes that this energy contributes to their competitive advantage in the international operations. The business values their clients and would like to ensure their success while anticipating their diverse requirements. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

By just employing future focused employees, Meritor strongly thinks these top-caliber individuals would be able to rapidly adapt to changing surroundings and demonstrate the commitment and performance considered necessary in order to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers their workers various possibilities for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which consist of drivelines, axles, suspension and braking systems for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is likewise responsible for supporting the needs of their worldwide engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group that is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

The supplier development network is specially situated in order to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each part of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business processes and implement lean methods.
