

Concrete Hoppers

Concrete Hopper - This particular attachment is a self-dumping hopper which automatically sets off to unload as soon as bumper release touches the side of a dumpster. Once dumping is completed, the hopper returns to an upright and locked position. This particular piece of machinery is even accessible together with a cable which allows operation from the seat of the lift truck so as to have the choice of manually unloading the hopper. There is a locking chain provided so as to secure the hopper to the fork truck. This product is made with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to maintain durability.
